

WALLOPS NORTH ISLAND ELECTRICAL UPGRADE, IFB NNG14517542R

INDUSTRY QUESTIONS

1. Are cameras allowed at the mandatory site visit?

NASA RESPONSE: Yes, cameras are allowed at the mandatory site visit.

2. I have been trying to print out Attachment C for this solicitation and am having no luck. Could you please let me know if there is any way you can send me an email with this information in it or let me know if there is another way for me to receive it?

NASA RESPONSE: We are unable send the drawings via email due to file size. Please try to access the information using a different internet browser. We have downloaded the attachments several different times from the site and have had no issues. Also, we recommend downloading the attachments from a computer rather than a portable device. If you are still unable to download, the documents are available for a \$100 fee.
